

COMMERCIAL PASSENGER TRIPPING MOORING VACANCY

The Trust Port of Saundersfoot is looking to award a new commercial passenger tripping mooring to a suitable operator.

The successful operator will be selected on the basis of a sound business plan to demonstrate that they can operate throughout the summer period, and complementing the Ports inclusive objectives, by offering suitable adaptive facilities aboard their vessel.

Equally the Commissioners are looking for an operator who understands the need to work in partnership with the Harbour Team in developing a successful tourism visitor attraction that will complement the new facilities, soon to be developed at the Harbour as part of its Phase Two development, as well as understand the importance of offering a quality family friendly service.

The allocated mooring will be located within the harbour, the optional extra of a wall mooring for a tender and an outer harbour swing mooring shall also be available.

The mooring and commercial operator's licence will be offered annually providing that you have operated satisfactorily with the above conditions and in accordance with our Harbour regulations.

All interested parties are invited to submit a business plan to the Trust Port CEO no later than Wednesday 07th February 2018 at 12:00pm, any applications after this time will not be considered.

The commercial mooring is awarded to a named individual and not a company or partnership, in which the mooring cannot be transferred / sublet or sold. Equally it would be expected that the named operator is on site at the Harbour or within the nearby vicinity for the majority of the vessels operational period, and would be required to play a principal role in the day to day management and operation of the vessel.

The Trust Port reserves the right to re advertise the position if it fails to receive suitable or insufficient applications.

If you require any further information please contact the Harbour Master on 01834 812094 ext 1.
