

# Notice to Harbour Users

## Harbour Channel Markers

Issued on 4<sup>th</sup> Jan 2016

No.1 -2016

Please be aware that the channel markers at the mouth of the harbour entrance are no longer marking a defined channel due to a large egress of sand over the past few weeks, therefore both port and starboard markers have been temporarily replaced with yellow buoys to indicate this issue.

Therefore please allow for additional depth of water when egressing and entering the Harbour.

The Harbour team will endeavour to get the channel back into operation ASAP, when achieved will revert back to the green and red port and starboard buoys.

Many thanks for you co-operation

**Deputy Harbour Master.**
